```
interface Mail {
    void sendMail();
    void log();
}
class MailImpl implements Mail {
    @Override
    public void sendMail() {
        System.out.println("gửi mail");
    @Override
    public void log() {
        System.out.println("xem log");
    }
}
class main {
    public static void main(String[] args) {
        MailImpl a = new MailImpl();
        a.sendMail();
        a.log();
    }
}
